Abstract. The article examines the influence of the type of family interaction on the academic performance of cadets of educational organizations of the Ministry of internal Affairs of Russia. In conclusion, the authors note that child-parent relationships are an important factor affecting the professional success of a cadet. In assessing the nature of the interaction within the family should consider many factors, both objective (financial situation of the family; the number of its members; the nature of professional activities of the parents; no father or mother, etc.) and subjective (level of autonomy of the child; emotional closeness with parents; the nature of incentives and penalties applied in the family, etc.)

Keywords: family, family impact, academic performance, cadet, Ministry of internal Affairs.

On the relevance of the concepts of social perception and profiling

A.V. Siletskaya,

Abstract. The article presents a theoretical and methodological analysis of the correlation of such psychological concepts as social perception and profiling. The applied meaning of these two concepts is revealed. When defining profiling, the author proceeds from the position that profiling is a special case of one of the sides of communication psychology-social perception, while profiling is an integrative branch of psychological knowledge. An analysis of studies of social perception shows that there is no categorical and conceptual apparatus that would allow to unify and analyze the description of any socio-perceptual process. At the same time, social perception is the bearer of the perceptual diagnostic function: the choice of a particular line of behavior by the subject in each interaction situation has the goal of perception – an assessment of its elements, that is, the object and itself, and the situational context as a whole.

Keywords: social perception; profiling; relevance; profile; model; portrait.

The research activities of cadets (students) of certain areas of training in the light of federal state educational standards of higher education

A.A. Bazulina, O.M. Doroshenko,

Abstract.
